Lubricantes

Recomendaciones basadas en la información prescrita por los fabricantes de vehículos, sujetas a cambios sin previo aviso. Respete los programas de cambio de aceite y mantenimiento especificados por el fabricante en el manual de cada vehículo. El nivel correcto de aceite en el cárter debe estar entre las marcas de mínimo y máximo de la varilla de nivel de aceite del motor. Revise el nivel de aceite del motor semanalmente, con el vehículo sobre una superficie nivelada; si es necesario, rellene con el mismo tipo de aceite. Debido a los constantes avances tecnológicos, esta información está sujeta a modificaciones o actualizaciones sin previo aviso. El uso de esta tabla es solo orientativo y no sustituye la consulta regular del manual de mantenimiento del vehículo. Imágenes meramente ilustrativas.
